

Scout Troop 1018: AI Merit Badge Assignment

Complete the following assignment by **Monday, June 1st**. Submit it to Mr. Lee before or during the Scout meeting for a short interview.

Problem 1 (Future Careers in a World of AI) We discussed that AI may change the responsibilities and future prospects of many jobs. Write a short reflection answering the following questions. Each answer should be about one paragraph.

- (a) Choose a job or profession that you may want to have in about 20 years.

The remaining questions should be answered for the job or profession you chose in part (a).

- (b) Discuss the current responsibilities of this profession.
- (c) Search for one real example of how AI is currently being used in this profession, and discuss possible benefits and risk of using AI in this way.
- (d) Discuss how AI may change this profession over the next 20 years.
- (e) As AI becomes capable of completing some tasks in this profession, discuss which human abilities may become more important for success.
- (f) Discuss what you can do now to develop these human abilities and prepare for this profession in a world where AI is widely used.
